CONTROL OF RUTHENIAN SCHOOLS IN ALBERTA MUST BE FIRMLY MAINTAINED

Vigorous Measures Adopted to Ensure English Education for Children of Foreign Parents

TEACHERS FROM MANITOBA SUMMARILY DISMISSED

Minister of Education Deals Firmly With Refractory Galician School Trustees

The department of education for Alberta has a real live problem on its hands in connection with the education of foreigners. The Galicians have been putting up a big fight to get control of the schools in their own districts and install Galician teachers. A number of Galicians who had been employed in Manitoba schools came here last spring and asked to be employed by the Galician school boards. It is stated that many of these so-called teachers were capable, able to speak and write English. When this condition of affairs was discovered by the department, Mr. Fletcher, the supervisor of schools among foreigners, was instructed to deal with the properly qualified normal school trained teachers placed in these schools.

In a number of cases the foreign teacher refused to leave and as the Galician school board refused to dismiss him, the Hon. John R. Boyle, minister of education, sent Mr. Fletcher, an official trustee and he at once proceeded to deal with the Galician trustees and install the regular teacher.

School Trustees Obstruct.
The opposition raised was so strong in the Kolkomen and Bukovina school districts that it was necessary to have the school trustees brought before a magistrate and fined for interfering with the qualified teacher in the discharge of his duties. In the case of the Bukovina school, the parents of the children have now decided not to send their children to school.

The Hon. J. R. Boyle, minister of education, interviewed on this subject today, stated that if these Galicians continued to absent their children from school the Treasury Act would be put into force against them. Mr. Fletcher is meanwhile acting as an official trustee and he seems to it that the district pays the salary of the properly qualified teacher.

Strong Measures Necessary.
In Manitoba the Galicians were allowed to get control of their schools with the result that children are proving up in the province unable to speak a word of English. Mr. Boyle emphatically declared that the state of affairs would be permitted in Alberta.

"This is an English-speaking province," said Mr. Boyle, "and every Alberta boy and girl should be able to speak English education in the public schools of the province."

Mr. Boyle added that there appeared to be an active organization

BALKAN WAR COST OVER \$500,000,000

This is Estimate of French Editor—Expenditures by Turkey Totalled \$100,000,000—France to be Asket for Huge Loans

London, Aug. 19.—M. Philozou, editor of La Correspondence Orientale, estimates that the two Balkan campaigns cost the belligerents no less than \$500,000,000. Philozou, in the course of his investigation, has gathered through the papers of the Turkish general staff with the late Mahmud Sherif Pasha and estimated the expenditure of Turkey to July 1, 1913, at \$150,000,000, not including the requisitions in Roumelia at the beginning of the first campaign.

As for the allies, Greece alone has officially communicated her military outlay, which amounts to about \$100,000,000, including \$50,000,000 on the war with Bulgaria.

An exact estimate as regards Serbia and Bulgaria is impossible, but Serbia says Philozou, was very conservative in her mobilization for her campaign and her total outlay is not more than \$100,000,000, while that of Bulgaria probably is \$100,000,000.

Roumelia spent \$40,000,000 preparing for war and her mobilization and campaign cost her \$20,000,000 or \$70,000,000 in all.

In addition to this total of \$500,000,000, Philozou adds a further sum of \$100,000,000 must be reckoned with for bringing the armaments up to date. This means that the western powers, France especially, will shortly be asked for loans and the invasion crisis can the Balkan states and Turkey bear such a burden?

Commerce Cutting Wheat.
Minneapolis, Minn., Aug. 19.—About 20 per cent. of the farmers in this district commenced cutting wheat yesterday and what is known as the "best" wheat is being cut. Fifty per cent. more will be cut between now and Saturday.

PORTY LIVES LOST IN WRACK OF SHIP
Seattle, Wash., Aug. 19.—Officials of the Pacific Coast Navigation Co. today definitely fixed the loss of life among the passengers and crew of the wrecked steamer State of California at thirty-three passengers, and seven sailors.

The ship ran full speed upon an uncharted reef which tore the hull nearly out and she sank in three minutes.

SWISS GOVERNMENT TREATY OF LONDON.

Berlin, Aug. 19.—The Swiss government was officially informed today that the European powers are considering measures to completely respect the treaty of London.

To Visit Turkey.
Vienna, Aug. 19.—The government of Turkey is known here today, will shortly make definite overtures to Turkey against the further advance of her troops in Thrace.

THE LADY GREY WILL CONVEY MR. HAZEN EAST

Nothing Less Than Government Steamer Will Do for Minister of Marine

Ottawa, Aug. 19.—Hon. T. White, minister of finance, who has been in England for a couple of months, is sailing for home next week and will be here about September 1. Mr. Martin Burrell is expected to return from England about the same time as Mr. White.

The government steamer Lady Grey left Portland today for Port Arthur to meet Hon. J. D. Hazen, returning from the Pacific coast.

Peer Retires From Politics.
London, Aug. 19.—The Marquis of Lincolshire, who is better known by his former title Earl Carrington, announced his retirement from politics. He has been fifty years in the House of Commons and House of Lords, and was president of the National Liberal Club.

The policy of conducting the schools by teachers speaking the English language and teaching in English with an exception in the matter of teachers' certificates, is one that should appeal to the people of Alberta as a sound educational policy should have the support of the great majority of people in the province.

DETERMINED TO SOLVE MYSTERY OF THE FIRES

Investigation Is Held at Brandon on Circumstances Attending Blaze at King George School, in Course of Strange Series of Conflagrations

Brandon, Aug. 19.—That the government is determined to solve the mystery of the remarkable series of fires which have for some time past thrown the citizens of Brandon into a state of nervous tension was amply demonstrated this afternoon when an investigation was held in the very classroom of King George School where a mysterious fire occurred on July 25th.

The Winnipeg Detective Agency, where Marshall Jackson is the head, have for some days been working on the case and W. J. McFarlane, one of their most active criminal detectives, conducted the investigation. Several witnesses were called, the evidence tending to show that the fire had been caused by some one who had a key to the school door. A dramatic incident occurred when, on being examined and requested to produce his private key, a witness was found to possess one which would lock the school door. It is denied all knowledge of the fire and stated that he had had the key in his possession for six years and did not know it would be the lock of the school door. The fire has yet been made.

AUSTRALIAN AVIATOR COMPETES FOR \$25,000

But Fails to Get His Machine in the Air, the Aeroplane Being Bally Battered by the Waves and the Engines Covered With Water

Yarmouth, Eng., Aug. 19.—Robert Pickles, an Australian aviator, endeavoring to make a record, was today defeated by Harry G. Hawker, the aviator, who after making two flights of 240 miles was forced by illness to withdraw from the 1,000 mile tour around the coast of England and Scotland for a prize of \$25,000, failed to get his machine into the air.

The hydroplane was badly battered by the waves. The engine was covered with water and the pilot and mechanic were in danger of being drowned when rescued. Later it was announced that the present attempt to tour the English and Scottish coast had been abandoned.

Another report will be made tomorrow from Southampton.

HARVESTING NEARLY FINISHED AT THE HAT

Crop Off Demonstration Farm Best Ever Reaped—Ample Moisture This Year

Harvesting was completed on the government demonstration farm at Medicine Hat a fortnight ago last Saturday. The crop was the best ever reaped and consisted of 180 acres of wheat, oats and barley. Harvesting is nearly completed in the Medicine Hat district and the crop is far better than the average for many years past.

Unusually short of rain, the Medicine Hat district has this year had an abundant supply of moisture, rain having fallen practically every week through the summer and now it is just about the time of the Lettbridge fair that the crop in good shape for harvesting.

Barley has been cut on the government farm at Medicine Hat and the harvesting of other crops will be commenced this week also at Charlevoix and Sedgewick.

SULZER WILL NOT ABIDE BY THE DECISION

New York State Governor Will Seek Court Decision on Impeachment

STATE DEPARTMENTS GETTING BEHIND GLYNN

As Acting Governor He Will Transmit Message to Assembly Today

Albany, N.Y., Aug. 19.—That Governor William Sulzer will decline to abide by the opinion of Attorney-General Carmody, declaring Lieut. Governor Martin H. Glynn to be the acting governor of the State, but will seek a court decision, to test the legality of his impeachment by the Assembly, was the general opinion expressed in official circles today. Both Mr. Sulzer and his counsel declined to discuss the attorney-general's finding.

Some of the state departments, which have been wavering as to whether they should continue to recognize Mr. Sulzer as chief executive, are expected to follow the advice of the attorney-general and accept Mr. Glynn as the acting head of the State government.

The legislature was scheduled to meet at noon, when it was expected that Acting-governor Glynn would transmit a message containing financial and other matters, the acceptance of which would amount to formal recognition of his claim to the governorship pending the impeachment proceedings against Mr. Sulzer.

WILLIAM SULZER, JR., a leading Canadian aviator, whose first book, "William Adolphus Turnpike," has created a most favorable impression among the critics.

Announce Army Changes

W. C. Gordon-Hall, who for over two years has been general staff officer of the first military division, has received notification of his appointment to the position of director of military operations at Ottawa, and will leave this city early in September. Lieut. Colonel A. H. McDermott, of the staff of the division, has been named to succeed Major Gordon-Hall and for the time being Col. McDermott's office remains unaltered. Col. Patey is Major Gordon-Hall's predecessor at Ottawa.

Alberta's Name Sounds Sweet To Farmer's on Parched Plains

"Drought in U. S. and Failure of Crops in Many Parts Will Result in Big Movement Toward Alberta," Declares Charles S. Hotchkiss, Chief Publicity Agent for Alberta, Back From Long Trip.

The outlook for immigration to Alberta is very promising, declared Charles S. Hotchkiss, chief of the publicity department in the Alberta government, who returned yesterday from a trip through Eastern Canada and the Western States of America. The drought occurring over a large territory south of the line made the opportunity for reaching the people of Alberta, a very favorable one and the farmers who are now on fields of stunted corn and sunburnt pasture looked with great interest at the message Mr. Hotchkiss brought from Alberta.

Alberta's Name is Sweet

"It is with renewed appreciation of Alberta's climate that I come back to Alberta, after a visit in a torrid heat of 100 in the shade, where you could not wear a coat without suffocating and where there was no relief of night from the swelter of the day," said Mr. Hotchkiss. "We are apt to grumble and say that we have too much rain and that the weather is cool, but there are worse climates than rain and cool weather."

The news of the plentiful rains and cool nights on the Alberta prairie was a relief to the ears of the people all through the country. In many towns it passed through, the water supply was completely exhausted and water was being carried by wagon for many miles, while water cars are being run on most of the trains.

Failure of U. S. Crops

"The people were talking Alberta and were anxious to hear about our crop prospects here. Undoubtedly the result of the failure of the corn crop in many parts and the more or less

complete failure of hay and other crops will be a great movement toward Alberta. I saw only one other place where the weather was so hot that it was a wonder how the cattle got a bite out of it at all. In some places the grasshoppers were so bad that they were actually eating the leaves from the tops of the corn. While the crops were so bad, the farmers who are now on fields of stunted corn and sunburnt pasture looked with great interest at the message Mr. Hotchkiss brought from Alberta.

The Foothill Favorite

Mr. Hotchkiss made a tour of the Canadian government agencies in the Middle States with the object of seeing the people and he found that Alberta was the favorite among the provinces. Mr. Hotchkiss states that Alberta was the favorite among the provinces. Mr. Hotchkiss states that Alberta was the favorite among the provinces. Mr. Hotchkiss states that Alberta was the favorite among the provinces.

He attended the International Typographical convention at Toronto, and although Alberta lost the convention for next year by the narrow margin of eight votes the fight was one of the best of the campaign. Mr. Hotchkiss states that Alberta was the favorite among the provinces. Mr. Hotchkiss states that Alberta was the favorite among the provinces. Mr. Hotchkiss states that Alberta was the favorite among the provinces.

Get a Victrola for the Children this Summer

Whether you are away or at home there will be many long hours when the big folks are busy, and the kiddies will be restless and want something to do. Then is the time for the Victrola. The children will listen to it for hours at a time. It will furnish the cleanest and best kind of amusement and keep them out of mischief. Best of all, though, it's not a play thing because the grown-ups enjoy it as much as the children, and it will furnish just the best kind of entertainment or music for dancing you could imagine.

Take the children to any "His Master's Voice" dealer in any City in Canada and let him play the Victrola for them. We know you'll get one if they have anything to say about it.

Prices are from \$20 to \$300, sold on easy terms (as low as \$1 per week) if desired. You can get double-sided records at 90c for both selections.
